

Remote Training Site Warner Springs

Natural Resources

Stephens'
Kangaroo Rat

Arroyo
Toad

A diverse range of plant and wildlife species can be found at the Remote Training Site Warner Springs, including two species listed under the Endangered Species Act as threatened or endangered:

- Arroyo toad (*Bufo californicus*)
- Stephens' kangaroo rat (*Dipodomys stephensi*)

The Navy is committed to protecting these and other plant and wildlife species while completing its mission through the following measures:

- Formal consultation with U.S. Fish and Wildlife Service and cooperation with State and Federal protection programs
- Implementation of appropriate management strategies to protect sensitive species and habitat
- Protection of native plant communities to support biodiversity and ecosystem health
